

McLaren Vale & Districts War Memorial Hospital Advisory Group

Meeting 2

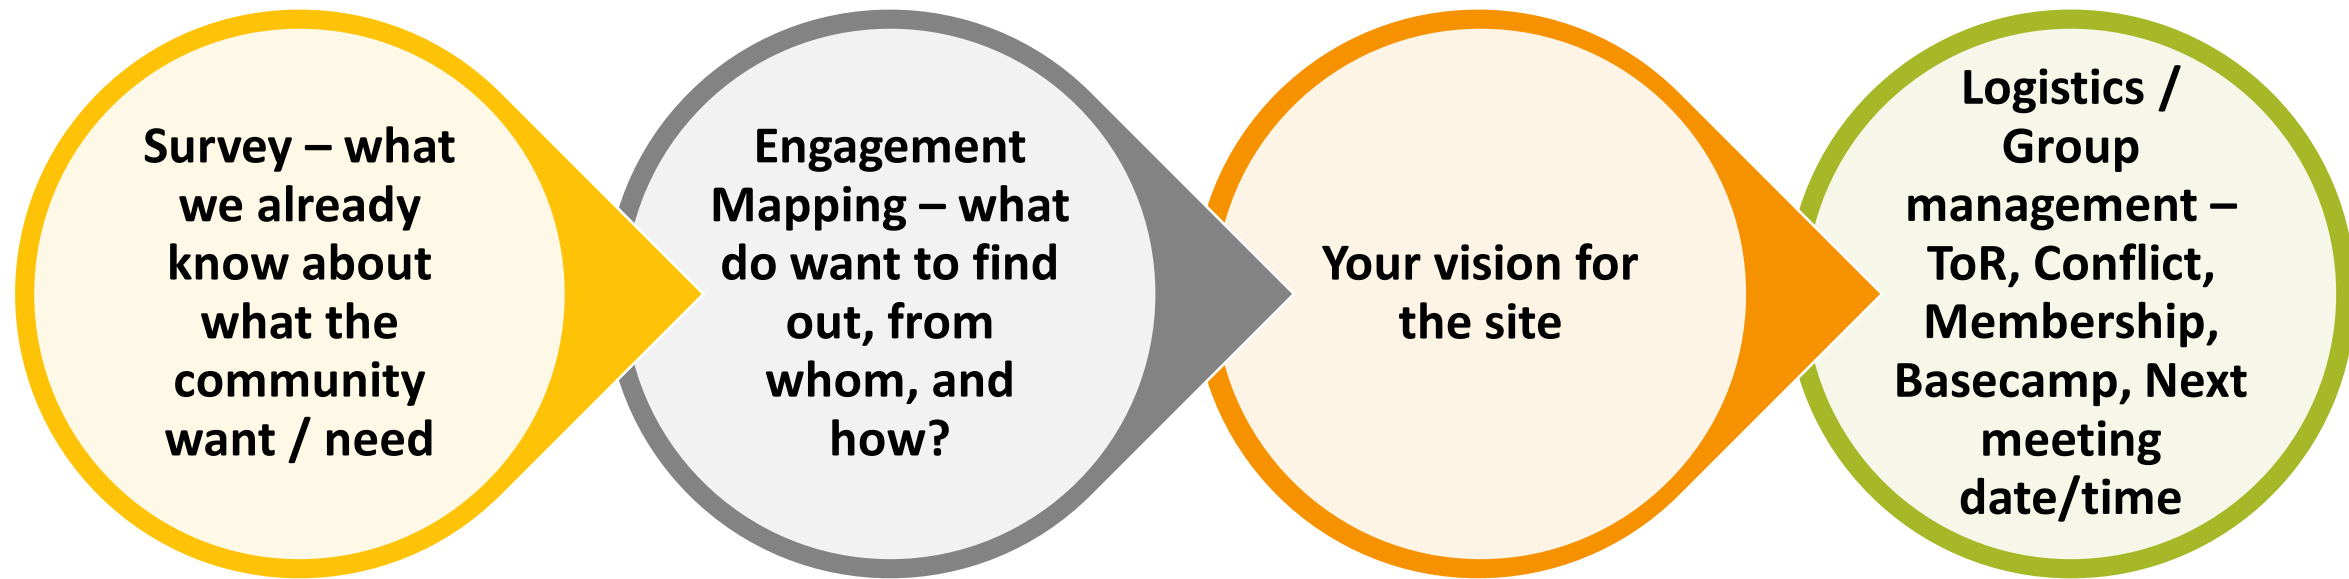

Mad Tea Party

1. As I walked through the site I felt....
2. What stood out for me was....
3. What I hope could happen for this site is....
4. A big opportunity I see for us as an Advisory group is..

Today

The background features a dark grey, hand-drawn illustration of a community meeting. Several stylized human figures are shown in profile, some holding up sheets of paper. Above them are various speech bubbles containing phrases like 'WE'RE EMPOWERED', '...IN CHARGE', '... MAKING DECISIONS', and 'IMPLEMENT THIS!'. The overall style is sketchy and collaborative.

Community Survey Results

**McLaren Vale & Districts
War Memorial Hospital Advisory Group**

About Community Survey

The Community Survey was undertaken in October / November 2023. It sought to understand two key things.

- 1. Process** - How the community wants Kalyra to work with them regarding the site.
- 2. Views on the site** - What elements of the Hospital site are important to them and why?

The process was promoted via paid advertising in the Fleurieu Sun, an article in the Fleurieu Sun, via social media, promotion to Kalyra residents and via direct promotion to the Hospital Board Membership.

125 people responded to the survey.

What is most important to people about the site?

Q1 What is most important to you about the McLaren Vale Hospital site? Order from most important (at the top) to least important (at the bottom)?

Top 3, No1's were

1. GP Wellbeing Clinic - 48 people
2. Supporting community facilities - 21 people
3. History of the site - 17 people

Why is GP Wellbeing Clinic important?

People who identified “GP wellbeing” as the most important element of the site, provide the following reasoning. In order -

1. Community is expanding and aging –Community is already seeing shortages in GP’s.
2. The GP’s at this clinic are excellent – offer diverse services that are needed.
3. “This is my GP surgery and I want to keep it”.
4. Accessibility is good – this is central location for GP.
5. Takes pressure off hospital in Noarlunga.
6. Historically this site has been used for healthcare.

“The district is forever expanding, and without this service many people with health issues would struggle to be seen in a timely manner by a health professional. This would ultimately put more pressure on the hospital system.”

Why is supporting community facilities important?

People who identified “supporting community facilities” as the most important element of the site, provide the following reasoning. In order-

1. The site belongs to the community – It should serve the community.
2. Community services provide wonderful and vital support
3. Elderly need support.
4. Builds a sense of community
5. Fills an important need – there is a lack of infrastructure to support community

NOTE - Some people interpreted this as meaning – ‘hospital facilities’.

Why is history of the site important?

People who identified “the history of the site” as the most important element of the site, provide the following reasoning. In order -

1. Family history - the site has been important for providing health services to generations of locals.
2. War memorial – a place to pay honour and respect.
3. Heritage is important to maintain.
4. It was a gift to the community.
5. Beauty of the buildings.

“Many people on the Fleurieu, young and old, have used and loved this hospital over decade.”

Hopes for the McLaren Vale Hospital site

Survey respondents hoped that the following would be considered priorities for the site.

1. Health facilities – 52 respondents
2. Community facilities – 28 respondents
3. Aged Care, Respite & Palliative care – 20 respondents
4. Hospital retained or rebuilt- 16 respondents
5. Allied Health – 7 respondents
6. Housing – 6 respondents
7. Maintenance of gardens – 6 respondents
8. Protect buildings – 3 respondents

I sincerely hope that private developers are not allowed to take over this beautiful site. I wish for Kalyra to provide excellent services to older people, in various forms (eg, medical...).

Enlarge the kitchen services to include nutritious food ...eg, a cafe. Provide temporary emergency support...

Predominately, I'd like to see support in all areas for older residents to enable them to stay safely in their homes or facilities in this community.

respice continue provide medical health hub area centre health services retained
support Kalyra palliative care south need good remain place
people focus site elderly used keep services health care
community help hospital older facility maintained
health see stay care continue offered local will buildings options
becomes see used provide love see aged care facility medical facilities
rehabilitation

"Health" responses unpacked

Almost half of the respondents to the Survey prioritised health services for the McLaren Vale Hospital site ... Respondents indicated that they would like the site to become a "health hub" – including a range of services across the preventative, treatment and rehabilitation spectrum, including:

- Specialists,
- Allied health,
- GP's
- Rehabilitation
- Mental health
- Pathology
- Respite

"Community facilities" unpacked

28 respondents to the Survey prioritised community facilities for the McLaren Vale Hospital site.

The feedback on this issue was generally not specific – with respondents just wanting **the site to remain an asset for the community, a place which benefits the local McLaren Vale community and broader districts.**

Respondents talked about the site always being a place for the 'community' and hence the importance of retaining it for this purpose.

A couple of people highlighted that because of this, the site should be developed collaboratively – with community.

"To get used in a positive way for people. Nothing specific just something that helps our human race."

"That it can continue to contribute to the community as it always has."

"Aged Care, Respite and Palliative Care" unpacked

20 respondents to the Survey prioritised aged care, respite care through to palliative care as important services for the site.

There was a sense in the feedback that the area needs services which help people on their return independent living post hospitalisation via 'live in' care facilities which provide supported rehabilitation and respite. These facilities could have an aged friendly swimming pool and other rehabilitation services that could be available for the broader community.

"A Convalescent home would be a major step for post hospital. A step to home independence"

"Palliative care unit ... but health services of any kind in an aging region would be beneficial"

How Kalyra works with the Community

Q5 Please identify the ways you would like Kalyra to work with you on the future of the McLaren Vale Hospital site? You can identify as many options as relevant to you.

The most identified methods were –

1. Information Events
2. Information via social media
3. Direct communication via emails (and similar)
4. Surveys
5. Newsletters

Reminder about our role

McLaren Vale & Districts

War Memorial Hospital Advisory Group

Background

The McLaren Vale & Districts War Memorial Hospital (MV&DWMH) has agreed to transfer the assets and undertakings of the Hospital to the James Brown Memorial Trust (Kalyra).

Kalyra intends to continue to use the MV&DWMH site to support the health and housing needs of residents of the Fleurieu Peninsula as they age, and respond to the needs of the community on the site.

To help achieve this, Kalyra is embarking on a process of co-design and deliberative engagement which involves bringing together the community and key stakeholders to design how they will work together before the co-design process begins.

To assist in this, they are establishing this McLaren Vale Hospital Site Advisory Group (the Advisory Group).

The Advisory Group will be a key bridge between the community and Kalyra as they plan the future of the site. In addition to this, the Advisory Group will be central to establishing the vision for the site – ensuring it meets the needs of the McLaren Vale and districts community.

The Advisory Group will be facilitated by independent facilitators democracyCo.

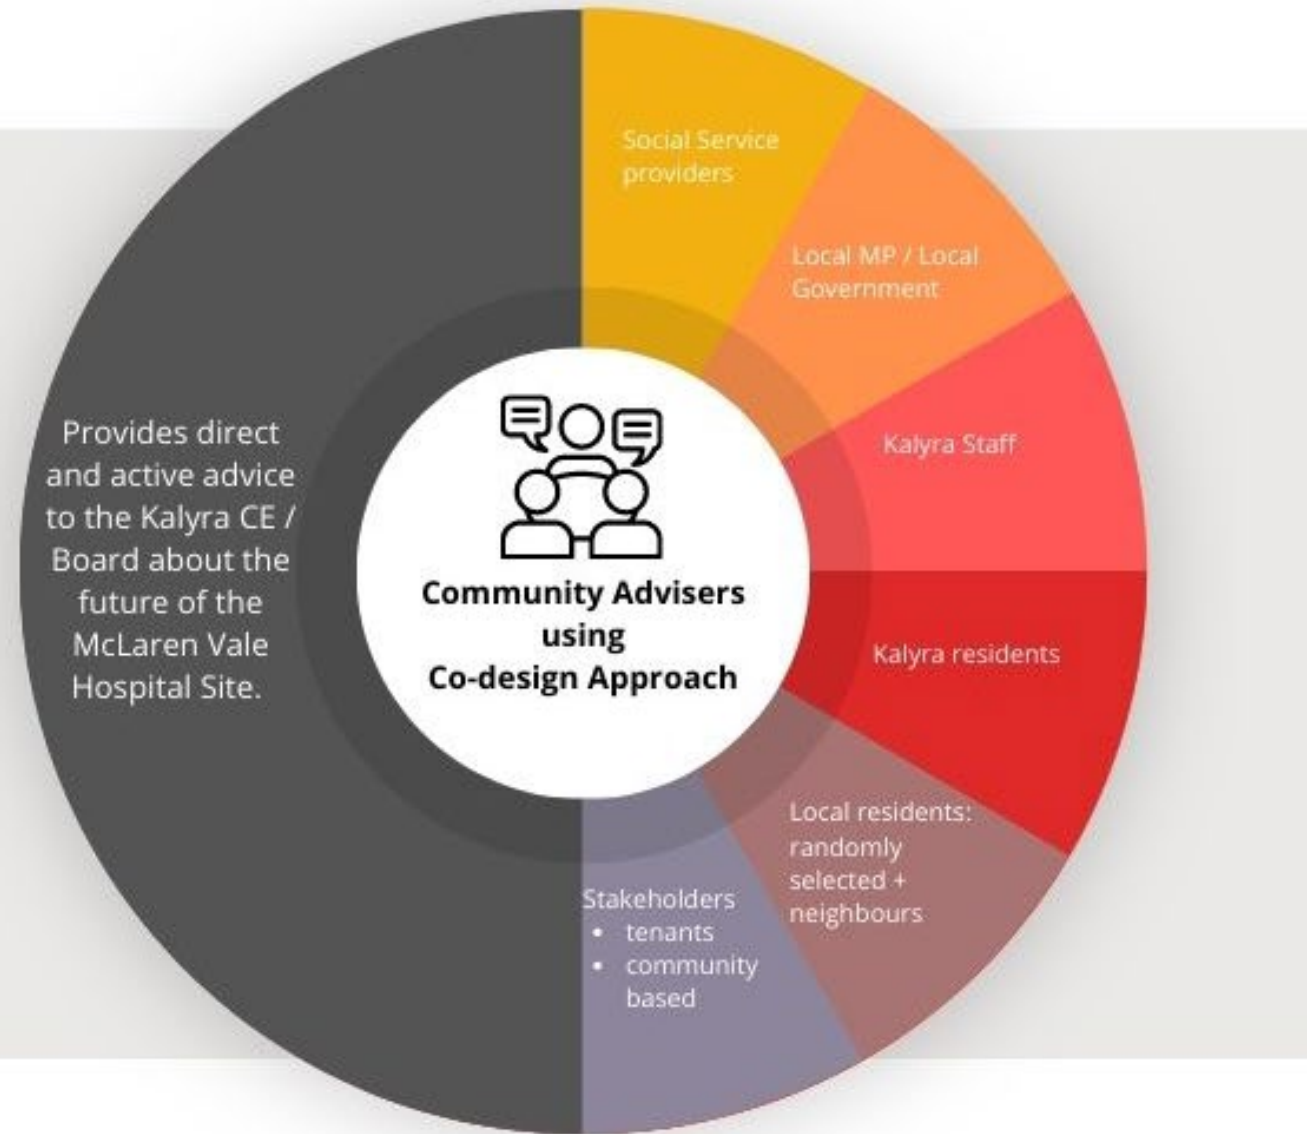

Our purpose

Community Advisers using a Co-Design Approach

Work collectively (together) to:

- set the vision for the site
- define the purpose and principles for the use of the site
- learn about what's feasible / not
- determines engagement & communications / information needs and opportunities

Provides direct and active advice to the Kalyra CE / Board about the future of the McLaren Vale Hospital Site.

MCLAREN VALE & DISTRICTS WAR MEMORIAL HOSPITAL ADVISORY GROUP WORKFLOW 2024

Advisory group to be established during Feb 2024.

RECRUITMENT

FEB

Meet and Greet
Contexting - learning about the site & Kalyra.
Clarify role - check/approve ToR
Group Norms & Logistics

SESSION 1

LATE MARCH

Developing a vision for the site - engagement planning together.
Consideration of key ToR roles & finalise ToR.

SESSION 2

MID APRIL

Approving / tweaking engagement plan.
Understanding engagement activities (inc their own role).

SESSION 3

LATE MAY

Review outcomes from engagement and start pulling them together into vision

SESSION 4+

SEPTEMBER

Community Engagement – purpose

**McLaren Vale & Districts
War Memorial Hospital Advisory Group**

In considering the future for this site, Kalyra want to...

- **Work together and with the local community**, users of the hospital spaces, residents, staff and potential future users of the hospital site – to plan its future in the long and short term.
- **Seek to support the agency and autonomy of the local community**, our residents and staff - and look to support services that the community can design and deliver.
- **Be transparent, open** and share information to enable us to work together.
- **Work to build social connection** and strengthen the community fabric.
- **Respect place** – respect the history, heritage and environment of the hospital site.
- **Pursue a practical approach** which is tailored to the community.
- **Use and value the knowledge and skills** of – hospital staff, Kalyra staff and our residents.

Moving beyond a survey....

A survey is not sufficient to do all of these things!

- We want to understand what many people from the community need – in a way that supports the community to consider the best balance of use from the site
- We want to understand what this community are missing out on, or are likely to miss out on in the future
- We want to ensure the future use of site 'feels like' and 'looks like' what the community envision
- We want to understand what's important to retain and those things which we can do away with.

So we need to design an engagement approach that allows us to go broad and deep!

Engagement Design

McLaren Vale & Districts

War Memorial Hospital Advisory Group

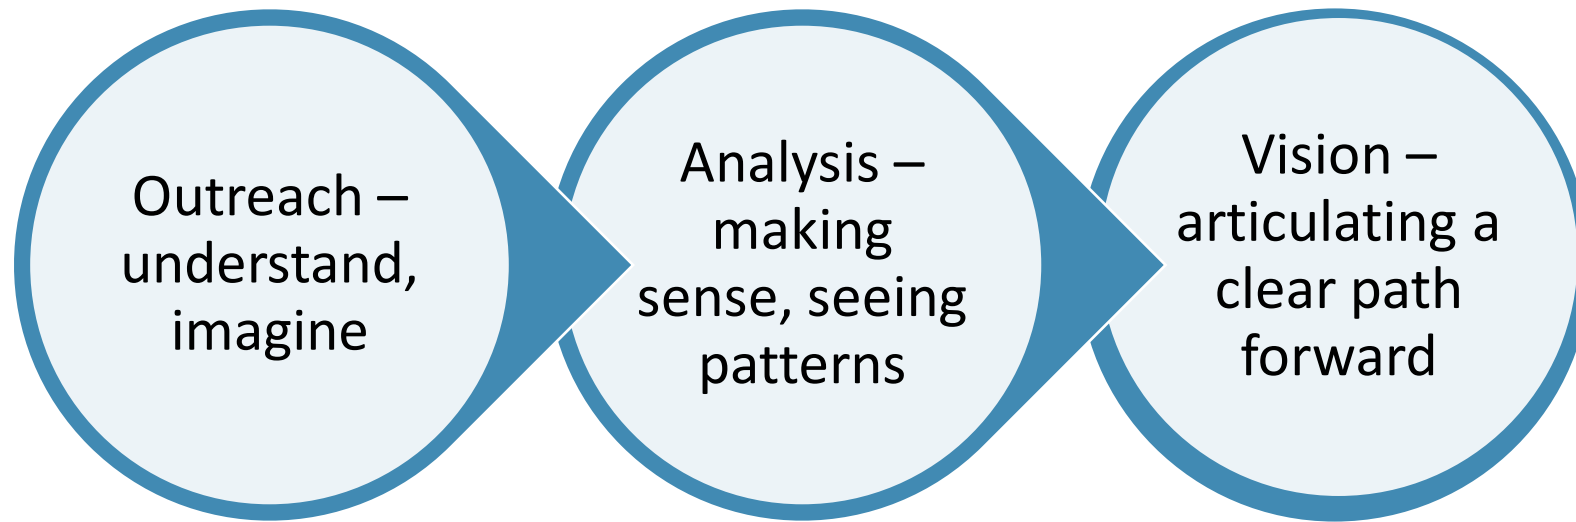

What do we
want to find
out from the
community?

How do we
reach them?

Who do we
need to
reach?

Our engagement should have these components...

Next meeting?

How is Basecamp
working for you?

Bits & pieces

What do you want to
share with the
community about
today?
